**Vladivostok Issues
overprinted "DVP" on stamps of Siberia**

overprinted on postal savings stamps of Russia

**1920, October
Blagoveshchensk Issues
Post Horn Designs
unwatermarked, imperf, litho**

the inscription reads "Amur Province Postage Stamps"

Originally, the Blagoveshchensk set was designed and printed d in the Amur Region before it became part of the Far Eastern Republic in the summer of 1920. It is somewhat a mystery of why these stamps, featuring a pair of post horns were ever issued, but they became available in Oct. 1920.

Very few of the stamps were actually used, and a huge stock of remainders were cancelled with three diagonal bars, a diamond shaped pattern, or a bar made by colored pencils or crayons.

**1921, March
Vladivostok Arms Issues**

Double Eagle Coat of Arms design, similar design of Imperial Russian stamps

These stamps were also used by the Japanese backed rebels after the 26 May 1921 coup in Vladivostok

These stamps continued to be used after the FER joined the Russian state, and were used throughout Eastern Siberia until early 1924.

1922
5 Year Anniversary Overprint Issues
Vladivostok Arms issue overprinted
 unwatermarked, imperf, litho

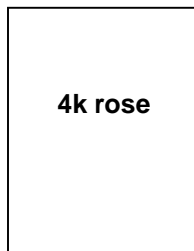

After the Red army recaptured Vladivostok, many of these stamps were overprinted "1917 // 7-XI // 1922" to commemorate the 5th anniversary of the Russian revolution.

1923
Vladivostok Issues
Russian stamps surcharged in Gold Kopecks
 unwatermarked, imperf, litho

Technically these were not issued by the Far Eastern Republic, as the Republic ceased to exist on Nov, 1922. These stamps were issued in the Far Eastern Republic Territory because of the change in currency in Russia to the gold standard
